CHILD FIRST - ASPIRE - CHALLENGE - ACHIEVE

Meon Way Infant Schools – Early Years Policy

Introduction

This policy outlines the purpose, nature, provision and management of the early years that we offer to all pupils attending Meon Way Infant Schools . The Foundation Stage has its own statutory framework, which applies to all pupils from birth to the end of the reception year. The children at Meon Way Infant Schools are admitted to the Reception year in the September following their fourth birthday.

“All children deserve the care and support they need to have the best start in life. Children learn and develop at a faster rate from birth to five years old than at any other time in their lives, so their experiences in early years have a major impact on their future life chances. A secure, safe, and happy childhood is important in its own right. Good parenting and high-quality early learning provide the foundation children need to fulfil their potential.”

Statutory framework for the early years’ foundation stage - Department for Education 2024

At Meon Way Infant Schools we believe strongly in the importance of giving children the best start to their education by providing a nurturing and supportive setting, where we believe all children are capable of great things. We view the EYFS as preparation for life and not simply preparation for the next stage of education.

Aims and objectives

It is our aim that children will settle into school life confidently and calmly, with enthusiasm and enjoyment, developing their life long love of learning.

We aim to provide a nurturing and caring environment where children feel safe to be themselves and where everyone is treated with respect.

We aim to provide a balance between adult directed and child-led learning. We believe that children learn well when following their own interests and are supported by adults in their play to develop and progress. We provide an environment that is well led and enhanced by adults but enables children to develop their own learning.

We believe that conversation is at the heart of early years and we aim to provide children with a wide range of dialogue and vocabulary to help them to find their voice in the world.

We believe that real life experiences and outdoor learning are vital to children's learning and development and we aim to give them a variety of these experiences throughout their time in the EYFS.

We aim to support the children in becoming independent learners who are developed well in all areas.

At Meon Way Infant Schools, we will:

* offer the children a broad and balanced curriculum that enables all of the children to reach their full potential.

- Provide a stimulating and challenging programme of learning and development.
- Support the children to become independent and collaborative learners, ready for their future learning in KS1.
- Respect and value each child individually, ensuring that we know their strengths and regularly assess their needs so that their development is supported.
- Develop strong relationships with parents and carers, valuing their input about their child, and working together in the best interests of the children.
- Provide a nurturing and caring environment which is sensitive to the needs of all children, including those with additional needs.

[Our Early Years Foundation Stage provision is based on the following principles:](#)

- It builds on what our children already know and can do;
- It ensures that no child is excluded or disadvantaged;
- It offers opportunities for learning both indoors and outdoors;
- It provides a rich and stimulating environment;
- It recognises the importance of a partnership with parents and carers.

[The Early Years Foundation Stage Framework:](#)

The curriculum framework that we use in the Early Years Foundation Stage (EYFS) is the Birth to 5 Matters non-statutory guidance. This supports staff to deepen their understanding of child

development with guidance on how they can support children's progress throughout the year. There are four principles that underpin this guidance and work together for all children.

1. A Unique Child:
2. Positive Relationships:
3. Enabling Environments:
4. Learning and Development

A Unique Child

Every child is a unique child, who is constantly learning and can be resilient, capable, confident and self-assured. At Meon Way, we value the diversity of the children within our school and believe that every child matters. All children at Meon Way are treated fairly regardless of ethnicity, gender, religion or disability. All families are welcomed and valued within our school community.

Inclusion

- We give our children every opportunity to achieve their personal best and planning is reviewed regularly and adapted to meet the needs of all.
- We set realistic and challenging learning opportunities to support and extend the needs of all our children.
- We use a wide range of teaching strategies based on children's learning needs.
- We offer a safe and supportive learning environment that can be accessed by all learners.
- We use resources which reflect diversity and are free from discrimination and stereotyping.
- We monitor children's progress regularly and take action to provide support where necessary (such as referrals to school nurse, speech therapy etc).
- We work closely with parents, carers, other outside agencies to ensure all children's needs are met, and that they have full access to the curriculum and make good progress from their starting points.

Positive Relationships

Children learn to be strong and independent through positive relationships. At Meon Way, we aim to develop caring, respectful and professional relationships with all of our children and their families.

Parents as Partners

We recognise that parents/carers are children's first educators and we value being partners with them in their child's education through:

- Developing relationships with parents/carers before their child starts school at our stay and play sessions in the summer term, and a 1 on 1 parents meeting at the start of the Autumn term.
- Arranging, visits by the EYFS staff to see children joining us in their childcare provision prior to their starting school.
- Outlining the school's expectations in the Home-School agreement.
- Holding a parent consultation early in the academic year to establish how a child is settling into the school environment.
- Operating an open-door policy for parents/carers with any queries or concerns to approach our staff.
- School newsletters, curriculum newsletters and website.
- Inviting parents to attend workshops about areas of the curriculum, such as phonics.
- Offering parent/teacher consultation meetings throughout the year where progress is discussed.
- Sending a written short report at the end of the Autumn term and a longer written report at the end of the year.

- Parents are invited to a range of activities throughout the school year such as assemblies, workshops, Christmas productions and sports day etc.
- Tapestry, an online Learning Journal that parents can access to see their child's current learning. They can also comment and make contributions

Staff

All staff in the Foundation Stage will develop good relationships with all children ensuring that their individual needs are met. All staff interact positively with all children, are a positive play partner and take time to listen to them.

Our staff are well trained in child development and receive continuous professional development to ensure we provide the very best provision for our pupils.

Enabling Environments

Children learn and develop well in enabling environments, with teaching and support from adults, who respond to their individual interests and needs and help them to build their learning over time. Children benefit from a strong partnership between practitioners and parents and carers. At Meon Way, we recognise that the environment plays a key role in supporting and extending children's learning and development. We aim to provide an environment where the children feel confident, secure and challenged.

Environment

At Meon Way we will offer rich learning opportunities through stimulating resources that support children to take risks and explore safely by:

- Allowing all children to have daily access to an indoor and outdoor environment with planned continuous provision set up alongside discrete learning opportunities.
- Providing play-based learning where children have opportunities to direct their own learning alongside planned opportunities provided by staff.

- Ensuring learning environments are planned for both indoors and outdoors, that will encourage a positive attitude to learning and reflect the children's interests, passions and abilities.
- Providing materials and equipment that reflect both the community that the children come from and the wider world.
- Providing opportunities that challenge thinking and encourage independent learning.
- Ensuring that resources and spaces are safe to use and checked regularly.
- Allowing all children to use the environment in all types of weather (parents will be asked to provide a waterproof coat, wellington boots and sun hat as well as PE kits and plimsolls).

Learning and Developing

All areas of learning and development are important and inter-connected. We recognise that all children develop and learn in different ways and at different times. The framework covers the education and care of all children in early year's provision, including children with special educational needs and disabilities.

Our Foundation Stage curriculum reflects the areas of learning identified in the Statutory framework for the early years' foundation stage.

There are seven areas of learning and development

Three Prime Areas:

- Communication and Language
- Physical Development
- Personal Social and Emotional Development

Four Specific Areas:

- Literacy
- Mathematics
- Understanding of the World
- Expressive Arts and Design

Prime areas are fundamental to support development in all other areas. Specific areas include essential skills and knowledge for pupils to participate successfully in society. These are both interconnected with 'The Characteristics of Effective Learning' that look at the ways in which pupils interact with other people and their environment.

None of these areas can be delivered in isolation from the others. They are equally important and depend on each other. All areas are delivered through a balance of adult led and child-initiated activities to ensure that all children make progress from their starting points. Through play and practical experiences, pupils learn about the world and their place in it. They learn through first hand experiences, talk, books and equipment. We set realistic yet challenging expectations that meet the needs of all our pupils.

Children's development levels are assessed and as the year progresses, the balance will shift towards a more equal focus on all areas of learning, as children grow in confidence and ability within the three prime areas.

However, if a child's progress in any of the prime areas gives cause for concern, staff will discuss this with the inclusion lead and the child's parents/carers and agree how to support the child.

Reception pupils also participate in a daily phonics session, following the guidance from 'Read, Write Inc' our phonics programme and in line with the school's phonics policy (within the English policy).

[Characteristics of Effective Learning](#)

The Characteristics of Effective Learning and the Prime and Specific areas of Learning and Development are all inter-connected. We recognise that children's learning is not compartmentalised and many of these elements may be in action at the same time whilst children interact with people and things. We ensure that our environment and delivery of the curriculum incorporates the three characteristics of effective teaching and learning and ensure that these underpin learning and development across all areas whilst supporting children to

approach opportunities with curiosity, energy and enthusiasm whilst allowing them to remain an effective and motivated learner.

- Playing and exploring - children will have opportunities to find out and explore through investigation, playing with what they know and experience things whilst being willing to 'have a go'.
- Active learning- children will have time and space to be involved and concentrate on their learning whilst persisting when they encounter difficulties, and enjoy their achievements through what they set out to do.
- Creating and thinking critically - we encourage and support children to have and develop their own ideas, make links between ideas, and develop strategies for approaching things in different ways.

Planning

Planning is based upon topics with discrete directed teaching for phonics, maths, reading and writing. Although planning is based upon a different topic each term; these can and will change direction in response to the children's needs and interests, although the underlying progression skills will not. Our long and medium term planning outlines the skills and knowledge that will be taught to the children throughout the year, supporting them to meet the early learning goals as well as preparing them for the national curriculum in key stage 1.

Teaching

Each area of learning and development is guided through planned, purposeful play opportunities. These will happen through a mix of adult-led and child-initiated activities. All staff will respond to the needs and interests of the children and support them through their development of skills and knowledge across all areas of learning. Adult directed activities develop their understanding of key concepts and skills that are matched to children's development stage. Throughout their independent learning time children have opportunities to revisit and consolidate these concepts and skills. Staff adapt the teaching and learning throughout the year to ensure strong foundations are in place to secure a successful transition to the next stage of learning.

Assessment

As each pupil enters the Foundation Stage we will carry out a baseline assessment we then use this information alongside the information from parent and nursery visits to allow us to ensure an accurate starting point for each child.

The baseline assessments will happen within the first 6 weeks of a child starting and will be recorded within age ranges 1-6 as set out in the Birth to 5 Matters non-statutory guidance for the early years' foundation stage.

Ongoing assessment takes the form of both formal and informal observations, photographic, written work and focussed planned activities. Assessment is completed daily and involves all staff as well as parents' views, as appropriate.

These assessments will allow us to identify patterns of attainment within the cohort, and plan for the environments accordingly in order to ensure that the resources reflect the opportunities for development of skills for all groups of children.

Formative Assessment

Throughout the year children's learning is observed and observations are recorded on their development and progress within age ranges. This helps us to understand children's needs and allows us to plan for opportunities that help strengthen and develop skills and knowledge. Progress is recorded by using formal and informal observations as well as information gathered on Seesaw.

Parents will have the opportunity to come in and discuss their pupil's progress at least twice a year. Their input will be used to help inform planning for their children's future learning and development.

Summative Data

A data capture is taken at the end of each term, this information will be taken to pupil progress meetings to ensure that children are progressing and those requiring support or extension are identified and have their needs met appropriately.

The class teacher keeps progress records, a paper learning journal and records examples of each child's achievements within Tapestry. These are shared with parents regularly and child voice plays a key role within their ongoing assessment.

Tracking grids are updated at the end of each term. Pupil progress meetings termly ensure gap analysis takes place and that all children are supported and extended.

Transition

At Meon Way we believe that we should be prepared for the pupils entering each stage of learning. We see learning as a continuum and aim for a smooth transition from home to Nursey to School. We carefully plan to support children with transition and to ensure that each child starts school positively and settles into their new class quickly and happily.

Starting Reception

Parents of all children starting in the next academic year will be invited to an Induction Meeting in the Summer term to learn more about the Reception curriculum. This is an opportunity for staff to

- Go through the school handbook
- Explain about uniform, PE kit and universal school meals
- Explain about holidays and absences
- Explain the Foundation stage curriculum and how parents can support children at home.

New class sessions - The children are given three opportunities to come into school to meet their new class teacher and other children in their class. Parents are invited to stay for 2 of these sessions but have the option to leave during the third. This means that before they join their new class the Reception environment is already a familiar place to them.

Parents are also invited to join us for a lunch time so that they can experience a school lunch with their children.

Arrangements are also made for Foundation Stage staff to visit them in their current nursery setting.

Starting in Key Stage 1 (Year 1)

Throughout the Reception year, each child's involvement in whole school life will have been built upon; many of the teaching and support staff will already be familiar people to them. They will have taken part in Key Stage and whole school assemblies as well as sharing Lunchtimes with the Key Stage 1 children.

Children will have the opportunity to meet their new class teacher and spend time in their new class during the summer term.

English and Maths books will be introduced to the children in the Summer term so that they are familiar with the expectations for when they join year 1.

Safeguarding & Welfare

At Meon Way, we understand that children learn best when they are healthy, safe and secure and when their individual needs are being met. Legally we are required to comply with welfare requirements as stated in the Statutory Framework for Early Years Foundation Stage. These requirements will include:

- Having a named Designated Safeguarding Lead
- Providing training to all staff to ensure they understand the safeguarding policy and procedures
- Ensuring that all adults who look after the children, or who have unsupervised access to them, are suitable to do so
- Providing induction training so that all staff understand their roles and responsibilities
- Ensuring at least one member of staff holds a current paediatric first aid certificate and is available and present at all times that children are present
- Ensuring that there is a first aid box visible and accessible at all times with guidance on keeping it well stocked and up to date.
- Ensuring that all children have a named Key worker assigned to them
- Ensuring that staffing arrangements meet the needs of all children to ensure their safety

- A setting that is welcoming, safe and stimulating where children can grow in confidence
- Promoting good health of all children attending the setting
- Adhering to the school's policy and procedures for administering medication
- Providing healthy snacks and encouraging parents/carers to support this by also sending in healthy snacks
- Managing behaviour effectively in a manner appropriate for the children's stage of development and individual needs
- Ensuring that all furniture and equipment is safe and suitable for the purpose it was intended for
- Ensuring that fire regulations and guidance are displayed and that all staff understand and know the procedures in place for evacuating children safely
- Ensuring that children have access to the outdoor play area daily
- Ensuring risks are managed and risk assessments in place where necessary
- Ensuring children with special educational needs (SEN) have specific arrangements in place and are these are reviewed with parents and children three times a year or sooner if needed due to statutory requirements
- Maintaining records, policies and procedures required for the safe efficient management of the setting and to meet the needs of the children and our statutory requirements.

Keeping Safe

We aim to educate children on boundaries, rules and limits. We follow the school's relational systems and policies. We provide children with choices to help them develop this important life skill. We encourage children to take risks and highlight the importance of keeping themselves safe by teaching them how to recognise and avoid hazards. We aim to protect the physical and psychological well-being of all children.

Good Health

All children are provided with a healthy snack each day. Milk is offered free of charge until the children reach the age of 5. They have access to water at all times. Parents are given a free water bottle at the start of the Reception year and are asked to bring it in daily with water. We encourage children to bring in water only.

Intimate Care

“Intimate” care is any care which involves washing, touching or carrying out an invasive procedure that most children are able to carry out themselves. However, depending on a child’s age and stage of development, they may need some support, for example dressing, wiping their bottom after using the toilet and changing underwear following an accident. Any child identified as having specific needs will have an Intimate care plan which will be shared with and agreed with parents/carers.

Every child has the right to privacy, dignity and a professional approach from all staff when meeting their needs and it is important that staff work in partnership with parents to give the right support to an individual child. Intimate care can be provided with permission from the parent or guardian. If a child has an accident, staff will provide help to change the child (gloves will be worn at all times). If the child cannot be cleaned to an acceptable standard, parents will be called to assist.

Monitoring and Review

It is the responsibility of those working within the EYFS to follow the principles stated in this policy. The Headteacher and SLT will carry out monitoring on EYFS as part of the whole school monitoring schedule along with Curriculum leads.
